* Vulnerable Populations (from the White House Coronavirus Task Force)

- Elderly Individuals
- Individuals with serious underlying health conditions, including high blood pressure, chronic lung disease, diabetes, obesity, asthma, and those whose immune systems are compromised (such as by chemotherapy or cancer and other conditions requiring such therapy)

** ALL decisions for moving from one Phase to the next and recommended Worship crowd sizes will be based on continually updated information from the CDC, the MS State Dept. of Health, and the Governor's Office. Official dates/times for Worship or any other meetings will be communicated as soon as we have information available from which to make those decisions.

In spite of our best efforts, there is an inherent risk associated with the spread of COVID19. While we hope that the efforts between us will diminish that risk, the decision to run that risk rests solely with each individual.
